

## HOW TO HOST A

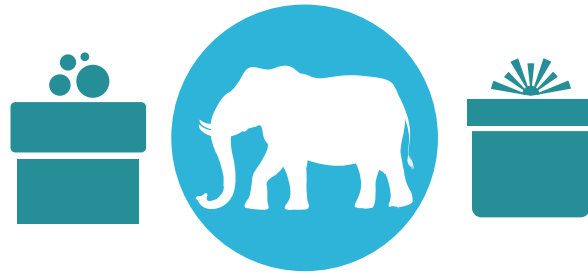

# White Elephant Party

1. Send invites out with all the important details. Set a gift price limit.
2. Each guest brings a wrapped, anonymous gift.
3. Number pieces of paper (if there are ten guests, use numbers 1-10).
4. Each guest draws a number to determine who gets to unwrap a gift first.
5. The guest who drew #1 selects a gift, unwraps it, and holds it up for all to see.
6. The guest who drew #2 decides whether to "steal" that gift or choose a new gift to unwrap.
7. The game continues in this fashion. Each guest gets a chance to "steal" someone's gift or unwrap a new one.
8. Wait at least one turn to "steal" a gift back that was "stolen" from you.
9. When there are no more unwrapped gifts, the guest who drew #1 gets one last turn to "steal" or keep the gift they have.

# HOW TO HOST A VIRTUAL White Elephant Party

1. Send invites out with all the important details. Set a gift price limit. You will use video conference software such as Zoom to play.
2. Each guest brings a wrapped gift.
3. Choose a picking order. Use a generator like [random.org](https://www.random.org) to determine the order.
4. Guests hold up their gifts on camera.
5. Guest #1 selects a gift. The gifter unwraps it on camera.
6. Guest #2 takes a turn, either "stealing" the gift or choosing a new gift to be unwrapped.
7. The game continues in this fashion. Each guest gets a chance to "steal" someone's gift or choose a new one to be unwrapped.
8. Wait at least one turn to "steal" a gift back that was "stolen" from you.
9. When there are no more unwrapped gifts, guest #1 gets one last turn to "steal" or keep the gift they have.
